yourself as an agent of to bring about
GOOD GOVERNANCE

Dear Santa Claus,

Please save our Event and Hotel Industry from these self styled extortionists called PPL and IPRS. These organisations in the garb of Copyright societies have been carrying out "Legal Terrorism" in India. With the help of corrupt bureaucracy, and Judicial favours these corporate entities have been milking business houses Hotels and Event Organisers in India in guise of enforcing Copyrights. For years together these self styled Societies have been running clandestine operations by threatening businesses and collecting arbitrary royalties. Their main business being "Bollywood Music". Both these corporate entities are promoted, managed and run by big Music recording companies of India.

THE PROBLEM: Time and again voices have been raised against the functioning and manner in which PPL & IPRS were collecting and distributing royalties.

These corporate brokers have been able to dodge every investigation by Govt. and have never followed rules laid down by the statute. The 'Modi Sarkar' has not renewed their registration which has hampered their collections this season (*Christmas and New Year are regarded as collection season by these companies*) Without any legal status whatsoever, these corporate houses are creating a fear psychosis among event organisers and collecting illegal royalties. These houses have grown beyond proportions and are even robbing the "AAM AADMI" by collecting royalties for WEDDINGS AND RELIGIOUS FUNCTIONS like DANDIYA AND RAAS, thus throwing the law of the land to dogs.

PPL in UK charges a mere INR 16112/- for a year whereas in India PPL charges 1,00,000/- per event. This is just the tip of an iceberg. They function without any tariff issuing licenses as per their whims and fancies. There are reasons to believe that most of this money is unaccounted and is finding its way to the underworld.

The well established nexus between Music industry and underworld is known to everyone in India.

Thru this post we invite the above mentioned persons in authority to be our 'Santa Claus' and treat this as a prima facie case and initiate suo-moto proceedings against these culprits.

We sincerely hope that the new Government will bring "Acche Din" to our industry by its **GOOD GOVERNANCE**.
